

SOUTHERN PORTS
ALBANY BUNBURY ESPERANCE

WE'RE PART OF THE
COMMUNITY

WELCOME

We're proud custodians of the Ports of Albany, Bunbury and Esperance, three economic gateways that link our amazing state to the rest of the world.

Combined, our three ports service an area of approximately 400,000 square kilometres which is bigger than the entire land area of Germany.

ACROSS OUR 14 BERTHS

WE PLAY A CRITICAL ROLE IN FACILITATING

that generates over
30 MILLION TONNES

and contributes over
\$9 BILLION
to the economy every year.

We have ambitious growth plans for each of our ports, because we're part of the community and we're in this for the long haul.

PART OF THE COMMUNITY

Our intent is clear, to create value for the Western Australian economy and the regional communities in which we live.

We're deeply committed to the success of the regions, because we're part of those communities.

Our three ports have a combined history of 600 years, and have played an important role in helping to drive regional prosperity over many generations.

TODAY WE:

Provide direct employment opportunities for more than 170 women and men, and thousands more indirectly.

Support more than 100 worthy projects, with \$270K of funding through our community sponsorship program.

Offer 2 apprenticeships & 9 work placements every year.

Closely monitor operations to ensure positive environmental outcomes.

Support the SES in case of an emergency in Esperance through our Emergency Response Team.

Support local suppliers and indigenous businesses.

EMPLOYMENT

Since forming in 2014, Southern Ports has brought together the skills and talents of more than 170 women and men in a wide range of trades and corporate roles.

Each year we offer a number of apprenticeships as well as work placement opportunities for high school students.

Southern Ports is an equal opportunity employer and welcomes applications from suitably qualified women and men.

Current vacancies are advertised on our website: www.southernports.com.au and on Seek on a regular basis.

COMMUNITY SPONSORSHIP

Southern Ports is proud to support a wide range of community groups and events across the south west of WA.

All applications are assessed against a set of criteria. We give priority to events or organisations that focus on maritime, sustainability, education, community infrastructure, community events and indigenous relations. While we can't support every project that requests our help, our aim is to support as many events and organisations as possible whose goal is to contribute to and improve the local community.

To apply, simply download our funding application form; available on our website.

ENVIRONMENT

We take our environmental obligations seriously. Our operations are heavily regulated by a number of Government agencies as well as regulations, licences and legislation.

From the development of our sites, to how we handle products for import and export, our environmental performance at each port is continuously monitored in terms of dust, noise, introduced marine pests, sediment and water quality.

We are committed to continuous improvement in this area and welcome feedback at any time from members of the community about any aspect of our environmental performance.

COMMUNITY CONSULTATION COMMITTEES

Each of our ports operates a Port Community Consultation Committee as part of our commitment to regular dialogue with local residents.

Meeting once a quarter, and initially appointed for a term of one year, the Committees provide Southern Ports with valuable insights that we use to improve our operations.

We value the feedback & contribution of all our Committee members and encourage interested members of the community to get involved.

ERT

In Esperance, members of our Emergency Response Team make a special contribution to the community through their support of the local SES. We know that when there's an emergency, a speedy response can be the difference between life and death - and that's why a dedicated group of Southern Ports employees are proud to volunteer their time.

When called on to assist, our team are deployed to support local emergency crews, whether that's fighting fires, assisting with storm / flood damage, or conducting vehicle rescues. We are happy to help because we know that natural disasters and emergencies don't discriminate - they're a shared community problem.

FUTURE

Over the next decade we have ambitious plans to grow each of our ports, capitalising on their existing strengths and unique assets.

- * **IN ALBANY**
we'll take important steps towards achieving our goal of making the Port of Albany one of the world's first fully sustainable ports.
- * **IN BUNBURY**
we have potential for significant expansion, so our focus is on growing our customer base while managing our assets sustainably.
- * **IN ESPERANCE**
our plans are focused on growing our operations through the smart use of technology to maximise our existing footprint.

At Southern Ports we know that when we have strong regional ports, we have strong regions.

THAT'S GREAT NEWS FOR ALL OF US!

...because just like you, Southern Ports' people are part of the community.
